

CONTACT CENTER TRAINING PROGRAM

Orion's Contact Center Training program offers training, assessment and skill building in the customer service arena.

Participants can gain experience training as a multi-service or technical support specialist, handling inbound customer calls, or as an administrative clerk, performing administrative tasks, greeting visitors, and directing individuals to the appropriate parties.

All participants in the Contact Center Training program should expect to eventually interface directly with the public, either via the telephone or face-to-face.

Program participants work closely with Orion Contact Center staff members and Orion vocational counselors to monitor progress and address barriers to employment.

Results will help participants determine what vocational or non-vocational goals might be appropriate to pursue.

Program participants earn minimum wage.
